Mokshit Sharma

AI/ML Engineer

Indore, India | mokshitsharmalaptop@gmail.com | mokshitsharma27.vercel.app | github.com/Mokshitsharma | linkedin.com/in/mokshit-sharma-75b5ab305

Available for internships and full-time roles, remote, hybrid or on-site in India.

SUMMARY

AI/ML engineer who takes models from training to a served, tested system: gradient boosting, deep learning and reinforcement learning with SHAP explanations, LLM agents with retrieval, and production experience as the only engineer of a live delivery marketplace.

SKILLS

Machine learning	LightGBM, XGBoost, CatBoost, scikit-learn pipelines, PyTorch (LSTM, temporal CNN), Stable-Baselines3 (PPO), hidden Markov models, SHAP, calibration, leakage-safe validation
Agents and LLMs	LangGraph (interrupts, checkpoints), Model Context Protocol servers and clients, tool calling and planning, human approval in the loop, structured output (Zod, Pydantic), RAG with citations, Groq, Gemini and Claude APIs
NLP and vision	FinBERT, TF-IDF, VADER, OpenCV
Backend	Node.js, Express, Python, FastAPI, TypeScript, real-time dispatch, Pusher and Socket.io, Razorpay and PayPal payments, ledgers and idempotency, scheduled jobs
Delivery	Docker, GitHub Actions, Codemagic, Vercel, pytest, Vitest, JUnit, Playwright
Languages	Python, TypeScript, JavaScript, Dart, SQL, Java, C++, R

EXPERIENCE

Founding Engineer & Tech Lead, Movigo Innovations Pvt. Ltd., Indore Apr 2026 – present

App Developer (Apr 2026), Lead App Developer (May 2026), Founding Engineer & Tech Lead (Jun 2026)

- Only engineer at a live delivery marketplace: rebuilt the product from scratch after an outsourced team delivered designs but no working software, and own the backend, both mobile apps, the operations console and production support.
- Node.js, Express and MongoDB backend with 400+ API routes, 40 data models, 8 scheduled jobs and a 15-second real-time dispatch loop.
- Made booking acceptance race-safe: one conditional database write lets exactly one of several accepting drivers win a booking.
- Shipped Flutter driver and retailer apps to Google Play (1K+ installs each) and the retailer app to the App Store.

Internships

- **Data Science Intern**, Kangaroo Software Pvt. Ltd., Indore Oct 2025 – Jan 2026. Worked on live project modules.
- **Data Science Intern (virtual)**, CodeAlpha Nov – Dec 2025
- **AI/ML Intern and Python Development Intern (virtual)**, CODEXINTERN Aug 2025
- **Artificial Intelligence Intern**, Evoastra Ventures Oct – Nov 2024
- **Data Science Intern**, Cognifyz Technologies Sep – Oct 2024. Collected, cleaned and interpreted datasets.
- **Data Science and Machine Learning Internship Program**, Edureka Jun 2024

Plus 5 further internships in software and C++ development; full list at mokshitsharma27.vercel.app/experience.

PROJECTS

CricXAI Python, LightGBM, SHAP, FastAPI, Parquet, Docker, GitHub Actions github.com/Mokshitsharma/CricXAI

- Recommends what to bowl next in an ODI, with dismissal probability, dismissal type, expected runs and SHAP reasons, trained on 1.36 million real deliveries.
- Leakage-safe features, match-grouped cross-validation and isotonic calibration: dismissal ROC-AUC 0.749, runs MAE 0.867; versioned models served through FastAPI.
- Parquet store about 15× smaller and 10× faster to load than CSV; 71 pytest tests with CI on GitHub Actions.

Sensei AI Python, PyTorch, Stable-Baselines3, hmmlearn, SHAP, FinBERT, FastAPI, Next.js github.com/Mokshitsharma/Sensei

- Buy, sell or hold signals for Nifty 50 stocks from five model families (random forest, LSTM, temporal CNN, PPO agent, hidden Markov regime model) combined in a readable vote with SHAP and FinBERT news sentiment.
- Backtester reports returns, Sharpe ratio and maximum drawdown; caching loaded models cut a cold analysis from about 31 s to about 7 s.

docIQ Node.js, Express, MongoDB, Chroma, BullMQ, Next.js, Gemini, Groq

- Question answering over contracts and invoices with answers that cite their source passage, plus a clause risk scan.
- Hybrid BM25 and vector retrieval; offline evaluation 11 of 11 retrieval hits and 1 of 1 correct refusal; 16-check end-to-end suite; falls back to extractive answers without an API key.

Naman, voice agent Python, LangGraph, Groq, Gemini, MCP, faster-whisper, SQLite, Telegram

- Voice agent for laptop and phone with 66 tools in 12 skill packs; approval is its own graph node, so every tool runs exactly once after a pause; 164 pytest tests.
- A code verifier cut outreach emails with an unsupported claim from 48 of 49 to 0 of 21; templated emails use zero AI tokens, and a simple command sends 22 of 66 tool schemas instead of all.
- Scheduled job-search pipeline across LinkedIn and Indian job boards found 1,555 openings by October 2026, with 30-day caching, pre-fetch filtering and quota-aware fallback across models.

AI Business Analytics Python, scikit-learn, SHAP, Gemini, FastAPI, Streamlit, ReportLab github.com/Mokshitsharma/ai-business-analytics

- Upload a CSV and get cleaning, exploratory analysis, automatically trained models, SHAP explanations and an LLM-written HTML and PDF report.
- One pipeline behind a CLI, a FastAPI service with background jobs and a Streamlit app; SHAP cost bounded by a 100-row sample; the report still ships if the LLM is unavailable.

Kaggle Playground competitions Python, scikit-learn, LightGBM, CatBoost, XGBoost

- Diabetes prediction over 26 health features with a blended CatBoost and LightGBM model; LightGBM with early stopping reached a validation AUC of 0.728.
- Student-score regression with K-fold validation and a stacked HistGradientBoosting and XGBoost ensemble under a ridge meta-model.

EDUCATION

Integrated B.Tech + M.Tech, Artificial Intelligence and Data Science, CGPA 8.2 2023 – 2028 (expected)
School of Data Science and Forecasting, Devi Ahilya Vishwavidyalaya, Indore

CERTIFICATIONS

Google Data Analytics Professional Certificate; HackerRank 5-star in Python, SQL and C++; Data Analyst Program, Infosys Springboard; 5-Day AI Agents Intensive, Kaggle and Google (Dec 2025); Generative AI Foundations, Skillsoft (Nov 2025); Generative AI Foundations: IT Integration with Generative AI, Infosys Springboard (Nov 2024); Excel, Infosys Springboard (Nov 2024); AI Masterclass, Freedom of AI (Jan 2024).
